There is a possibility that the Colusaleonard Extension Mining Company will
lesume operations before long. A representative of some Eastern interests is now
in London conferring with people there
who are interested in the company.

HELENA, Dec. 16.—The receipts of the
laited States assay office in this city for
the month of November amounted to \$112,418, of which Montana contributed \$102,518,
jeaving the remainder for Washington,
Rritish Columbia, Nevada and Idaho,
Madison county is the largest producer of
the Montana counties with Lewis and Clark
second and Fergus third.

A strike of gold ore which runs \$30 to the
ton is reported in the Elephant property,
near Pony which is being developed by a
local syndicate. The tunnel is now in 190
feet and the pay streak of 22 inches was
encountered in the centre of the breast.
The miners had not as yet got through
to the lead.

DULL WEEK IN STEEL.

P. R. R. Rati Order the Only Bright Spot -Fig Prices Held Up for New Year. PITTSBURG. Dec. 19 .- One bright spot in the dullest week in the year in the iron and steel trade was the placing of the expected order for steel rails by the Pennsylvania Raifroad. The contract calls for 135,000 tons, she bulk being for delivery before March 15, 1909, and the buyer has the privilege of increasing the order to 166,000 tons, the original estimate. It is stipulated that some of the rail makers are to furnish open hearth rails to the extent of one-half open hearth rails to the extent of one-half of the order. Open hearth rails by the Steel Corporation, it is understood, will be rolled at the new plant at Gary, Ind., which it is likely will be ready for partial operation soon after the opening of the new year. The order of the Pennsylvania is regarded as the beginning of an averaging rall business.

movement.

Buying of spikes and bolts and other track

material by the railroads lately has been on an extensive scale. Outside of wire and wire products and tin plate the market for finished material has been extremely dull. The American Steel and Wire Company reports increasing business and is planning to put on ad-

Steel and Wire Company reports increasing business and is planning to put on additional mills in a few days. At present the company is operating its plants at about 80 per cent. of capacity. New business, particularly for fence wire, is coming in satisfactorily. Jobbers whose stocks have been depleted are preparing to come into the market.

The tin plate trade has been exceptionally good and is likely to continue. The Pope Tin Plate Company and the McReesport Tin Plate Company are operating their plants to capacity. The Americas Sheet and Tin Plate Company at the close of the week was operating 136 tin plate mills, which is fully 65 per cent.

An order for 800 ore care for the Duluth and Iron Range Railroad, a Steel Corporation interest, has been glaced with the Standard Steel Car Company. The plates will be furnished by the Illinois Steel Company and the Carnegie Steel Company will supply the 6,400 steel wheels required. The cars will be built at the Hammond, Ind., works and are for delivery in March and April. The Pittsburg and Lake Erie Railroad has placed an order for 500 hopper cars, 100,000 pounds capacity, with the Standard Steel Car Company, and the Carnegie Steel Company has the order for 5,000 tons of plates.

Bids went in for the new buildings of the Crane-Best Company at Oakmont, a few miles north of Pittsburg. About 2,500 tons of steel will be required. The contract will be placed in a few days.

Mill operations during the last week showed some improvement over the previous week, but most of the plants will be closed on December 24 for the rest of the week.

There were no transactions in pig iron in the Pittsburg district and but few inquires. The only inquiry of any importance calls for a large tennary of hasic iron, but it

There were no transactions in pig iron in the Pittsburg district and but few inquiries. The only inquiry of any importance calls for a large tonnage of basic iron, but it is not likely that the order will be placed before next month. Prices for prompt and first quarter delivery are: Standard bessemer, \$16.50 to \$17; malleable bessemer, \$15.76 to \$18; basic, \$15.50 to \$16; No. 2 foundry, \$16; gray forge, \$14.50 to \$16; all f. o. b. valley furnaces.
